

UNITED STATES BANKRUPTCY COURT SOUTHERN DISTRICT OF INDIANA

NOTICE OF IMPLEMENTATION OF CM/ECF VERSION 3.3.1

On Monday, March 9, you will find a newly updated CM/ECF Program, Version 3.3.1, waiting for you. While there are many small changes, the biggest is for the benefit of the U.S. Trustees' Office and involves pulling data from some of the forms and schedules you file electronically into reports produced by the trustees. This process should happen automatically through your case management software, adding no burden to your office.

We have prepared a summary of all of the national changes which will be effective Monday morning. You will also be able to access links to explanatory slides and electronic learning media related to the topics. You are encouraged to access these materials and share with your staff. The materials will be available Thursday, March 5, at:

http://www.insb.uscourts.gov/procedure/331_training_files/Summary_of_Changes_in_Version_3.3.1.htm

Additionally, there are four adjustments we will implement locally to improve the program, which are not included in the summary.

1. Attorneys may now upload orders on motions to set or continue hearings in chapter 7, 11 and 12 cases, and in adversary proceedings. Restrictions remain in place to prevent uploading these orders on chapter 13 cases.
2. The Motion to Remove Document Pursuant to Fed. R. Bank. P. 9037 is now available on the limited users (creditors) menu.
3. A zero (0) can now be entered as an amount in the Balance on Hand field of the Trustee's Final Report and Distribution.
4. When filing an objection to claim on a large chapter 11 case with a Noticing Agent, you will see a "NtcAgemt" flag. When the flag is present, the Claim Number field can be skipped.

I believe that the changes will represent an improvement to work processes and hope that your experience is the same. In the unlikely event that you encounter difficulties, our case managers and help desk staff are ready to provide assistance.

March 4, 2009

/s/ Kevin P. Dempsey, Clerk
